MEDICAL IMAGING ACCREDITATION
As per ISO 15189

MEDICAL IMAGING ACCREDITATION ENSURES

- International recognition and acceptance of test reports through ILAC MRA
- Reliability and confidence in the imaging results
- Strengthening trust of end users
- Quality & Competence
- Regulatory Compliance
- Radiological safety compliance to AERB safety codes

NABL 156
Application Form for Medical Imaging – Conformity Assessment Bodies (MI-CAB)

NABL 135
Specific Criteria for Accreditation of Medical Imaging – Conformity Assessment Bodies

SCOPE

MEDICAL IMAGING-CONFORMITY ASSESSMENT BODIES (MI-CAB)

- Projected Radiography & Fluoroscopy
- X-Ray, Bone Densitometry (DEXA), Dental X-Ray-OPT, Mammography etc.
- Fluoroscopy Computed Tomography (CT)
- Magnetic Resonance Imaging (MRI)
- Ultrasound and Colour Doppler
- Nuclear Medicine
  - SPECT
  - PET CT
  - PET MRI

*Basic Diagnostic Interventional Radiology Procedures
(Image guided Core Biopsy and / or Needle Aspiration e.g. Fine Needle Aspiration Cytology)
*For only such IR procedures that will be carried out by Radiologists
